CAPTURE TEXT FROM PC TO PALM

Snapture makes it simple to quickly transfer text from your PC to your Palm. While you're in various applications including, e-mail, documents, spreadsheets, Web pages, etc. you easily select text and press F11. Snapture captures the information into a .txt file that can be edited in Microsoft NotePad. The next time you HotSync Snapture converts the text to a Palm Memo or Palm document and transfers the files from your computer to your Palm OS device.

TURN WINDOWS FILES INTO CONVENIENT PDFS

Click2PDF lets you easily create PDFs for your students, faculty, and parents with photos, assignments, newsletters, invitations, event agendas, stories and more. PDF files are non-editable, virus free, and can be opened and viewed across a broad range of software and operating systems including, Windows, Macintosh, Linux, and Unix. Click2PDF preserves the graphics, colors, fonts, & formatting regardless of the program the file was created with. You can also E-mail PDFs directly from any application with a single click.

SYNCHRONIZE YOUR PALM MEMORY CARD(S) WITH YOUR COMPUTER

BlueSync synchronizes your Palm Memory card(s) containing photos, documents, notes, assignments, to-do lists, and more with your computer. BlueSync will transfer changed or new files, remove deleted files, and keep an archive.

BlueSync does a full synchronization with a directory on your PC, allowing you to copy files into your PC directory, HotSync, and automatically transfer the files to your Palm card(s), making it simple to backup your palm card(s).

ELIMINATE ALL POP UP & POP UNDER WINDOWS

PopUp Stopper goes to work to enhance your online surfing experience by eliminating all pop up and pop under windows from appearing as you browse the Web. PopUp Stopper also detects and stops pop up windows opened by popular file sharing programs such as Kazaa, Kazaa Lite, Morpheus, Grokster, iMesh and others. You can view reports of all windows blocked, and temporarily disable the blocking mechanism to look at Pop up Windows.
